SUMMARY

I'm a passionate Computer Science Engineering student with a strong background in Java, C++, and web development. I've built academic projects like a responsive portfolio website and a library management system, showing my ability to solve problems and write quality code. I'm also AWS Academy Certified in Cloud Architecting and am excited to use my technical skills to contribute and advance in a professional setting.

TECHNICAL SKILLS

- Programming Languages: C, C++, DSA, Java
- Web Technologies: HTML, CSS, JavaScript
- Database Management: MySQL, Oracle
- Tools & Platforms: VS Code, AWS, Git/GitHub

PROJECTS

- **Face Recognition Attendance System using Machine Learning**
  - Technologies: Python, OpenCV, NumPy
  - Developed a facial recognition system to automate attendance tracking using machine learning, enhancing accuracy and reducing manual work.
- **Personal Portfolio Website |** *[GitHub Repository](#)* | *[Demo](#)*
  - Technologies: HTML, CSS, JavaScript
  - Designed and developed a responsive personal portfolio showcasing projects and skills.
  - Integrated smooth scrolling, interactive UI, and modern animations for a user-friendly experience.
- **Library Management System | C++ |** *[GitHub Repository](#)*
  - Developed a console-based system to manage books, members, and transactions.
  - Applied OOPs concepts (classes, vectors), file handling and input validation to ensure data
  - persistence.

EDUCATION

- Graphic Era Hill University, Dehradun
  BTech in Computer Science & Engineering | CGPA: 6.59/10 | 2021 – 2025

- IFTM University, Moradabad
  Diploma in Civil Engineering | CGPA: 8.26/10 | 2018-2021

- Nainital Convent School (CBSE)
  Class 12th – 2018 | Class 10th – 2016

ASSESSMENTS / CERTIFICATIONS

- AWS Academy Graduate - Cloud Architecting
  AWS Academy | May 2025| Completed 60-hour training on AWS cloud Architecture.
